

STUDY GUIDE

1. Complete the sentence: Young people today are

_____.

2. What does this tell you about the way you view the next generation?

3. Whether you believe it or not, God values the next generation. So as a Christian, you should too. How can you commit to concretely investing in the next generation? (i.e. Change my mindset, pray for them, disciple them, etc.)

Let's pray

Dear Father,

We praise and thank You for being a God who doesn't think in terms of lifetimes, but generations. Thank You for being a God who changes the world with every new generation that comes, and because of that, we can be assured that there is hope for humanity.

Lord, we pray that you reveal any sort of negative bias or misconceptions we may have of the youth today. Forgive us, Father, and replace our negativity with the eyes of faith. May we look at the youth today with so much excitement and hope for our future, knowing that You will take care of the next generation.

This we ask in Jesus' name. Amen.
